

Introduction To Digital Widgets

Objective

To provide the latest technological solutions by offering clients a unique blend of technical know-how, creativity, fast turnaround and personal customer service.

Interactive Web Site Design and Programming

Everything from small company information web sites to full blown Internet applications. We specialize in web sites that help our clients solve business problems. We have extensive experience in creating on-line database applications using Microsoft's Active Server Page technology.

Digital Widgets has produced online web based applications for such clients as:

- Chevron
- Gateway
- Bloomberg
- Daewoo
- IBM
- Hewlett Packard
- Toshiba
- Hallmark Channel
- NATPE (National Association of Television Production Executives)
- Advanced Workplace Strategies, Inc.
- Compliance Specialists, Inc.

In addition to developing web sites, we are dedicated to helping our clients use the Internet as a tool to help them in business. For those clients wishing to build and/or maintain their own sites, we also have several online resources available to help them achieve their e-business goals.

Web Site Hosting Solutions For Business

Host your web site on our high-speed servers. Our hosting packages are custom tailored to your specific application. We never over sell our bandwidth capabilities so your site will always respond to hits with lightning fast speed. We also give you the best customer service in the business.

Professional Speaker Support Design, Production and On-Site Presentation

We offer several services to assist our clients with their computer graphics needs. Specializing in professional quality speaker support services. Digital Widgets has extensive experience in large-scale professional presentations. We have produced and presented several large scale presentations for such clients as:

- Hewlett Packard
- Toshiba
- Universal
- IBM
- Roland
- Gateway

Canon
Chevron
Giorgio, Beverly Hills
Clarion
Smart & Final
Lincoln Mercury
Baskin Robbins
State-Of-The-Art Software
Mattel
Mitchell International
Platinum Software
SHL (Software Division of MCI)
Intelliant
ARC
AWSI (Advanced Workplace Strategies, Inc.)

Not only can Digital Widgets help you with the design and production of your presentation, our Internet expertise can simplify distribution of template files and graphics for multinational companies with presenters coming together from diverse localities (i.e. We can set up a secure Internet web site to act as a central depository for the show data and graphics).

Digital Widgets also provides on-site computer graphic presentation services worldwide. Including on-site operators/technicians and hardware rental/setup.

When it absolutely has to be the perfect presentation, call us. We can make it happen for you!

Internet Based Project Support and Event Web Sites

Combining our web hosting capabilities with our technical "know how" creates the perfect solution for those clients wishing to use the Internet as a project support tool. We've created project support web sites for both large and small clients. From simple central project information web sites, trade show support, booking/scheduling information, links to local attractions, weather, etc. We can also create registration/sign-up sites, all the way up to full-blown database applications. Digital Widgets has produced event/project support sites for such companies as:

IBM
Toshiba
Hewlett Packard
Daewoo

Custom Software Development

Digital Widgets has extensive software development experience using the latest Microsoft development products (Microsoft SQL Server, Microsoft Access, Microsoft Visual Basic and Microsoft InterDev). Specializing in scalable client/server database applications for business.

Digital Widgets custom software solutions are currently in use at such clients as:

Advanced Workplace Strategies, Inc.
Chevron
Compliance Specialists, Inc.
Daewoo
Xordium, Inc.

General Information

Digital Widgets has many services available to help our clients leverage the power of the Internet. From simple web hosting to full-blown web application development and deployment, Digital Widgets is a one-stop solution.

With our fast turnaround times, we've helped our clients use the Internet in new and innovative ways to give them an edge in a competitive market place. Some of our clients have used Digital Widgets sites to:

- Interactive real time database lookup/reporting
- Display interactive multimedia applications
- Produce site surveys (with photos, etc.) that need to be seen by clients with diverse locations
- Walk clients through project concept sketches
- Act as a central repository for files related to a project (i.e. PowerPoint templates for an upcoming trade show, or the final PowerPoint speaker support for a presentation made available to the attendees after they've returned home)
- Showcase special events or projects (Event webs)
- Use a user name/password interface to direct specific clients to any combination of the above
- Gather and deliver (i.e. via email) user input via web query forms
- Distribute customized information to large customer bases via email

Services

WEB SITE HOSTING TERMS AND CONDITIONS

Terms:

1. The Customer's first billing period starts on the day the account is activated.
2. Hosting fees are due prior to commencement of hosting service. Hosting fees are billed on a quarterly basis.
3. Domain name registration fees are the responsibility of the customer and are billed via email from Internic. Currently Internic charges \$70 for the first 2 years and \$35 for each additional year. See the Internic for details. (www.internic.net)
4. Digital Widgets will not refund any setup fee once an order has been placed.
5. Digital Widgets will refund the customer for unused prepaid hosting charges, unless the Customer is in violation of the usage terms below, for services canceled with more than 30 days remaining. The refund will be in the amount of all remaining full months of hosting.

Usage Terms:

1. The Customer will not attempt in any way to deny service or access to others using the Internet by such means as mail bombings, software pirating, or mass mailings.
2. The Customers password is secure and will be treated as private and confidential.
3. Customers will not be allowed to use excessive amounts of CPU processing on any of our servers (we are very lenient).
4. Digital Widgets will not be held responsible in any way for any information lost or destroyed by the Customer or anyone the Customer has given his or her password, or due to the mis-use of the virtual server. This includes unauthorized "hacking" due to the use of poorly written ASP/CGI programs and scripts.
5. Digital Widgets will not be held responsible in any way for any information lost or destroyed due to system outage or failure. While Digital Widgets provides daily tape backups of all servers, with weekly tapes removed to off-site storage, the Customer retains responsibility for backup of source material.
6. Digital Widgets liability is limited to refund of hosting fees in the event of a system outage or failure.
7. The Customer agrees to not use any illegal, offensive or pornographic material on their virtual server. Use of this material will be grounds for termination of the Customers account.
8. Digital Widgets retains the right to refuse service to any Customer who is in violation of any of the above.
9. Digital Widgets will not refund the Customer in any amount for the remainder of the Customers billing period if the Customer is in violation of any of the above.
